### **U.S. Helps to Improve Access to Quality HIV and TB Services in Chui Oblast**

**Bishkek, September 9, 2011:** The USAID Dialogue on HIV and TB Project, funded by the United States Government, will conduct a roundtable to share results of its project implementation aimed at improving access to quality services for injecting drug users in Chui Oblast.

Representatives of Chui Oblast and Rayon Administration, law enforcement bodies, Chui Family Medicine Centers, USAID, international organizations, NGOs, and USAID implementing partners will take part in the roundtable.

The roundtable is aimed to inform the participants on results achieved while working with injecting drug users in target sites of the USAID Dialogue on HIV and TB Project in Chui Oblast. State institutions in collaboration with NGOs will be given a chance to discuss achievements and obstacles that still exist in order to resolve those issues and improve access to quality services for injecting drug users.

*The United States Agency for International Development (USAID) is proud to celebrate its 50th anniversary in 2011. USAID was created in 1961 by President John F. Kennedy and is funded by the American people. Since 1992, USAID has supported local efforts to improve economic growth, governance, and the quality of health and education in Kyrgyzstan. USAID Dialogue on HIV and TB Project is one of many assistance projects supported by the American people through USAID.
